Subject: Evaluation of supplier performance for supplied items to PCB Technologies

PCB technologies is constantly evaluates the performance of its suppliers. If a supplier wishes to supply items/products to PCB technologies he has to comply with certain criteria.

The parameters are:

1. OTD (On Time Delivery) score - Supply of the ordered items within the time frame requested in the purchase orders, has a 45% influence on the total supplier score.
2. Products quality score – Comply of the ordered items to the requirements sent to the supplier, has a 45% influence on the total supplier score.
3. Evaluation score- evaluates the performance of its suppliers in the aspect of quality and procurement. The score is accordance with the service, responsiveness and order confirmation provided by supplier, has a 10% influence on the total supplier score.

According to your performance in the year **2021** here are your scores:

OTD score: 100%

Evaluation score: 100%

Quality score: 93%

Total score: 89%

Total score range	Supplier evaluation
96% - 100%	Excellent
89% - 95%	Comply
80% ≥	Not comply

Supplier evaluation for **2021**: Comply
